

Spa London

Life's Luxuries at Affordable Prices

Spa London

Spa London is an exciting new facility developed through a joint venture between Greenwich Leisure Limited and the London Borough of Tower Hamlets. It is located in the historic centre of London's fashionable East End.

The spa is found in the former baths at York Hall. These former Turkish baths have been lovingly restored but updated to provide modern treatments to the 21st century customer.

The Spa offers a high quality service with excellent facilities, but with affordable prices.

The UK's First

Spa London is the UK's first public sector day spa. It was part of a multi million pound refurbishment at the centre.

The spa was created to introduce the therapeutic and recreational benefits of spa culture to a new client group.

Spoil Yourself

The new facilities mix a range

of modern and traditional treatments including;

- Saunas
- Steam Rooms
- A Hammam
- Hot rooms
- Turkish Baths
- A Deep Relaxation Zone
- Specialist Treatment Rooms.

Spa London offers customers over 50 tempting treatments. A visit to the Spa also features refreshments and personal consultations.

Thermal Experience

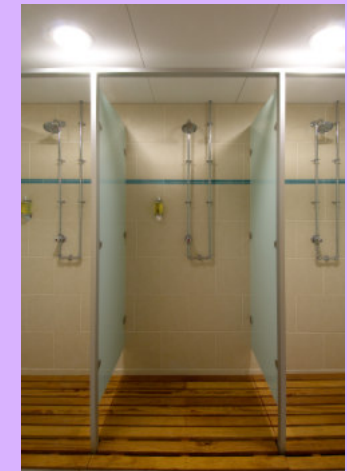

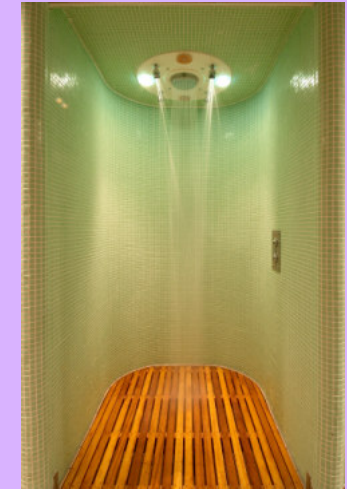

Amongst the many alluring attractions of Spa London is the Thermal Spa Experience. This consists of a dedicated zone containing six chambers, each housing a different heat treatment. The Thermal Spa Experience provides the

customer the opportunity to taste ancient therapies.

Delivering Quality

Martin Associates acted as Employer's Agents for the entire works programme. We tailored our services to this unique refurbishment, to deliver the quality product our client wanted to offer.

We fulfilled many roles as our client's professional advisers especially undertaking intensive consultations with specialists to achieve solutions for the complex architectural, structural, mechanical and electrical issues that arose, particularly as a result of the age of the building.
